2106 Corporate Drive
Boynton Beach, FL 33426

May 21, 2010

Dear Brian,

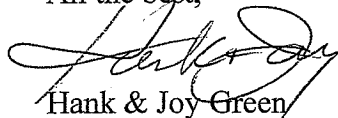

We hardly know where to begin. From the start, you have always been incredibly involved and knowledgeable about every phase of the demolition of our old house and the building of our new, beautiful home. We think that you did a spectacular job of overseeing the design and construction of our home and we cannot say enough good about how responsive, detail oriented and efficient you and your very competent project manager, Pete Molle, have been. We could not be happier with the wonderful home you've built for us.

Throughout the building process we think you and Pete have been professional, competent, thorough and wonderful to deal with. We would recommend you with the highest possible praise to anyone who wants to build or renovate a home. It would be our pleasure to be a reference for you with prospective homeowners in the future. In our book, you are terrific!

We were delighted with the supervision and expertise you brought to the job and with your reliability, honesty, professional knowledge and advice throughout the building process.

Thank you so much for an outstanding job. We love our new home and we appreciate all your effort and expertise.

All the best,

Hank & Joy Green
